PROFILE

M.Sc. student in Autonomy Technologies at FAU and AI/web developer with hands-on content creation experience spanning social media graphics, fitness posters, instructional PDFs, presentations, and technical LinkedIn visuals. Skilled in Canva, Adobe Premiere Pro, CapCut, and AI-assisted image creation. Combines visual storytelling and clear communication with analytics, teaching, and technical subject expertise.

CONTENT CREATION & COMMUNICATION SKILLS

Graphic design: Canva; Adobe design tools (occasional use); social media posts, promotional posters, educational PDFs, layout, and slide design.

Video & AI visuals: Adobe Premiere Pro, CapCut, AI-assisted image generation and iterative visual concept development.

Communication: Visual storytelling, technical explainer content, educational materials, workshop facilitation, Microsoft PowerPoint and Word.

Analytics & technology: Power BI, Excel, Python, Pandas, data visualization, web development, and AI/ML fundamentals.

SELECTED CREATIVE WORK

Fitness Social Media Posters & Instructional Workout PDFs

Self-directed / selected design samples | Canva

- Designed fitness-oriented social media posters with bold headlines, themed visual styles, English/Arabic copy, and promotional-style calls to action.
- Created multi-page Arabic training guides covering weekly workout routines and exercise instructions, combining graphics with structured informational content.

Technical Explainer Visual for LinkedIn

AI / Machine Learning communication

- Designed an educational visual illustrating a GPT-4o-mini teacher model and Qwen 2.5 1.5B student model to support a technical LinkedIn explanation.
- Translated a complex technical concept into a clear, accessible visual for a social media audience.

Presentation & AI-Assisted Visual Design

Selected creative exercises

- Prepared slide presentations to organize information and communicate ideas visually; experimented with AI-generated creative imagery and visual refinement.

PROFESSIONAL EXPERIENCE

Freelance AI & Web Developer **Jan 2025 - Apr 2026**

Self-employed, remote

- Translated business requirements into 5+ working application prototypes and developed web interfaces, combining technical development with user-facing communication.
- Built automated workflows and integrations on AWS EC2, including REST APIs and client-oriented technical solutions.

Machine Learning Trainee (Internship) **Apr 2024 - Nov 2024**

Digital Egypt Pioneers Initiative (DEPI), Mansoura

- Studied data analysis, visualizations, generative AI, NLP, and computer vision, strengthening the technical foundation for AI-related communication.

AI Trainee (Internship) **Aug 2023 - Sep 2023**

National Telecommunication Institute (NTI), Mansoura

- Completed AI training in machine learning, deep learning, and Microsoft Azure.

Instructor (Part-Time) **Jul 2022 - Oct 2022**

High Hopes Academy, Egypt

- Supported individual and group instruction, helped organize course materials, and collaborated on teaching approaches.

AI Educator & Workshop Facilitator **Feb 2020 - Feb 2025**

Life Makers, Egypt

- Designed and delivered hands-on workshops on workflow automation and API integration, making technical topics understandable to administrative teams.

MARKETING LEARNING

Marketing for Startups - Edraak | Independent online coursework in foundational marketing concepts.

EDUCATION

M.Sc. in Autonomy Technologies **Apr 2026 - Oct 2028 (Expected)**

Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Germany

B.Sc. in Computer and Systems Engineering **Sep 2020 - Jul 2025**

Mansoura University, Egypt | Excellent with Honors; top 5% of class

LANGUAGES

Arabic: Native | English: C1 (IELTS Band 7) | German: A2
